These will definitely help my graindson, who is struggling with math facts!

Great learning tools. We keep these in the car and my 1st and 6th grader go through them!

very helpful

Thank you!

Found them good for children to learn by.

I was so disappointed in these, having purchased a set of their third grade flash cards -- my 5th grade daughter literally went through this entire card set -- all 240 cards -- and got 100% of them correct, within less than 10 minutes. The fact that I got these for her because she was not secure in the math she was learning in school, and then proceeded to ace them all in record time make me think these cards are pretty useless.

Not for fifth-graders who are struggling and not for a math class that is not advanced.
