DK Braille: It Can't Be True

Synopsis

How big is the sun? What is the smallest bird? Where is the tallest building? Find out the answers to these questions and more in DK Braille: It Can't Be True. Explore astounding facts and stories through high-impact and embossed images in this special book designed specifically for blind or visually impaired readers. DK Braille: It Can't Be True combines braille, large print, and high contrast photography with clear and predictive layouts. Fact boxes offer instant information for readers, and the embossed images make new concepts as clear as possible for the tactile reader. Feel a hailstone three times wider than a tennis ball or a bird so small it can sit on the end of a pencil. DK Braille: It Can't Be True is a unique book that shares incredible facts with curious young minds. A flagship series of high-quality, custom books with braille and tactile images for blind and partially sighted children, or sighted children with blind parents. DK Braille books combine uncontracted Unified English Braille and large type with high-contrast colors, embossed images, and tactile cutout shapes for children to feel with their fingers. The combination of text alongside the braille enables sighted parents to share the reading experience with visually impaired children, and for sighted children to share with their visually impaired parents.

Customer Reviews

"A winning series that is truly for all board-book readers and their grown-ups." â ” Kirkus Reviews (Starred Review)"Polished design and execution make this a valuable resource." â ” Publishers Weekly (Starred Review)"What a great addition to the often groundbreaking titles offered by DK." â ” New York Journal of Books"I applaud DK Books, a mainstream publisher, for recognizing the needs of Braille readers." â ” Future Reflections"[A] hands-on storytime everyone can take part in." â ” Pregnancy & Newborn Magazine

Great book for blind and non blind children. Educational

Thanks.

I bought sight unseen, because I opened the "big trucks" volume in a book store, and this is published by DK.I was stunned by the QUALITY of the book. It's huge, yet quite light weight. The pages are as fascinating for the visual content as for the depth of the Brille content. All the pictures are raised, so kids have a blast touching the shark teeth.Well done DK, as usual

All these DK Braille books are wonderful. The best price I've found is at Seedlings Braille Books for Children.Highly recommend them.
