Scary Short Stories: Time For Nightmares: True Tales Of Ghosts, Hauntings, & The Possessed... (Creepy Stories Book 1)

Synopsis

Time For Nightmares: True Tales of Ghosts, Hauntings, & The Possessed – Claim Your FREE Bonuses After the Conclusion! All ghost stories are scary to some degree, but the ones we believe are by far the spookiest. As we read these tales, clutching at our blankets, staring anxiously at our closets, part of our brains are devoted to one simple question – Why am I so scared? In truth, the answer is simple. We are terrified of these real life ghost stories because we understand one fundamental concept – if it can happen to them, it can happen to you. Humans channel their empathy to experience specific situations that other people have endured. This allows us to sympathize with those who are down, and celebrate with others when they have a success in life. And it is this ability to empathize that makes us afraid of the small scratching sounds coming from the reciter’s attics, or the sound of phantom footsteps by the stairwell... We know, deep down, that such horrifying experiences could have happened to us instead. And when they finally do, they can turn the most unwavering skeptic into a true believer. Spirits and demons are out there in our world, lurking in the shadows, biding their time. They have all of eternity laid out at their feet – Here Is A Preview Of What’s Inside... Scary Short Stories: The House of Ghosts Scary Short Stories: The Boy by the Road Scary Short Stories: The Devil in the Ouija Board Scary Short Stories: A Doppelganger at the Lodge Scary Short Stories: Lady in the Old Dress Scary Short Stories: A Ghost Near the Fire Much, much more! Interesting.This a interesting group of collections of stories. It makes you wonder about all then things that go bump in the night.

Always a great read. Thanks for the stories.

Scary Short Stories is a very short collection of interesting ghost stories. I didn't find them to be particularly scary, but interesting all the same. These are not your typical historical-style ghost tales. For the most part they discuss unique hauntings.It's a very short book to begin with, but the author has added spaces after every paragraph and that makes it even shorter. The "extras" at the end of the book has the Scary Short Stories portion concluding at around the 58% point on my Kindle Fire. Like I said...VERY short. I grabbed this during a free promo. I'm not sure I would have purchased it at 2.99, however.

This short book features mostly new tales of ghostly hauntings that several different people had the misfortune of experiencing. This set of tales is on the scarier side and are interesting reads for paranormal fans. Enough background is given to put you into the story. Roger P. Mill's books are always entertaining and worth your time.

This book had some new interesting hauntings that I have not heard before. It's nice to have a book not repeat the same hauntings we've heard about a million times and that have been made into movies. What makes this book even more believable is that these are normal people living normal lives. They're not in the book to publicize on their hauntings, if anything, what has happened to them is just as mind boggling as it is for us to read about. This book definitely puts the reader on edge and makes them feel like it could most certainly happen to them. Pretty creepy nonetheless. The only bumner I felt was that it was over too soon!

I received this book for free in exchange for an honest review and found it fascinating. Because it is written by Roger P Mills, I always get what I want in a story. Recommending him is never a problem. Hope others will understand what I am talking about

Enjoyed these scary short stories as they were a good length and well written. The basement Poltergeist chapter gave me the creeps but I guess that's what I was looking for!

Good book, I love reading anything about haunting and ghost, was nice to read a few stories I haven't read in other books before
