Two Trees In The Garden: A Balanced Brain Theology

Synopsis

Two Trees in the Garden is a theoretical work of theological inquiry based on years spent pondering the meaning of Genesis 3, unpacking the metaphor of the "two trees in the garden" and looking at them through a neuro-analytical and linguistic lens and in doing so liberating me from my religious fundamentalist tradition and the essentialist shackles of a belief in original sin and replacing it with a belief system in support of a life lived in original blessing.
