Mike Meyers (Houston, TX) CompTIA A+, CompTIA Network+, CompTIA Security+, MCP is the industry's leading authority on CompTIA A+ certification and the bestselling author of eight editions of CompTIA A+ Certification All-in-One Exam Guide. Bobby E. Rogers, CompTIA Mobility+, CompTIA A+, CompTIA Network+, CompTIA Security+, is an information security engineer working as a contractor for Department of Defense agencies, helping to secure, certify, and accredit their

information systems.

Found Mr. Meyers direct writing skills very refreshing. Instead, of adding a bunch of miscellaneous stories/examples, Mr. Meyers gets straight to the point and addresses the Security+ categories. The simulations are quite weak. There are basically drop and drag multiple choice questions. This is the only thing keeping it from a 5. I still would recommend this over anything else though.

I read this book a couple times. It covers most of the basics but you will need more than this to pass the 401 exam. Best of luck!!!

Still reading it and it is a useful book. I am already in Security, but I need to take the test! I like this book because it is much more information than the class I took at work! If you want to take the test, I strongly get this book! I like Mike Meyers' writing style!

The book goes in depth with the material and makes it easy to understand and remember important points and topics. It is written like he is talking to you and not like a boring text book. If you are preparing to take the Security+ exam I recommend you get this book.

Well organized, simple English to let you understand the difficult terms easier. To be honest, you can heavily rely on one book for any examination. Use this one as your core material and buy extra exercises to practice before the examination.

Great book, lots of info.

Mr. Meyers can always be counted on for superb information and easily digestible instruction. If you are trying to keep up in the ever changing world of IT Security this is the perfect book from the perfect instructor. ~P. Chapman
