This is a great purchase for anyone needing to get basic trial ad experience! Very explanatory and informative and leads you to different sources as needed.

Very helpful book for law students in preparing for trial work.

This is a must have book for young lawyers who want to try cases. All the fundamentals are here, and mastery of fundamentals is all you need to outperform most of the competition. Professor Murray is a long time trial lawyer, director of the Harvard Law School trial advocacy program, and has taught countless trial advocacy classes for lawyers. This is an opportunity to learn from the best.

My law professor had us buy this book. He is excellent criminal defense lawyer . . . maybe he was trying to save us money because I've since found books that are much better. Price and brevity are the only two things I positively say.
