Be Aware!: My Tips For Personal Safety (Cloverleaf Books - My Healthy Habits)

Synopsis

Sophie is on a mission. You can call her Agent S. Like any good spy, Sophie knows how to be safe. She helps her brother stay away from danger too. They watch for speeding cars. They avoid strangers. And they never goof around on the school bus!

Age Range: 5 - 7 years

Grade Level: Kindergarten - 2

Customer Reviews

K-Gr 2 •These books present tips for children about how to develop healthy and safe habits. Each story is told from the perspective of a child who is dealing with a specific issue (a picky eater who realizes that he needs to eat more healthy foods, a girl giving her brother advice on staying safe) and shows how he or she learns more about it with the help of friends and family. Though the first-person narratives, which flow easily and contain clear, direct language, are not conventional nonfiction in format, they still convey useful information. Eye-catching full-color illustrations match the text and aid comprehension, while red text boxes emphasize important points. An engaging series that deals with everyday problems kids may face. --This text refers to the Library Binding edition.

Gina Bellisario is the author of fiction and nonfiction books for young readers (and the grown-ups who read to them). She lives with her husband and their twin young readers in Park Ridge, Illinois.

Sophie, Agent S., is putting on her thinking spy caps as she was watching out for her little brother, Will. It's her job to make sure that he is safe at all times. Agent S. is on a safety mission because they are on their way to school and has to make sure there's no trouble. Will, Agent W., has to keep his eyes open and watch for trouble too. Sometimes it's not easy spotting danger because things like cars can come out of nowhere. That's why it's good to watch out when crossing any kind of open area like driveways, alleys, and streets. Agent S. made sure they looked both ways before walking by that alley! Oh, look at that man in the blue car. "Are you lost?" he asked. Well, they didn't know him so the best thing to do was keep on walking. It was up and onto Miss Olive's bus, but there were still safety things for Agents S. and W. to be aware of. Those seat belts had to be fastened and they had to use their inside voices on the bus. When they arrived at school and got off the bus, they had to "move out of the Danger Zone." Miss Olive just might not see them if they were anywhere within 10 feet (3 meters) of the bus. Agent S. still had work to do and had to check up on Will in the hallway. Can you think of any safety things that the both of them might have to think about? This book is a simple, but effective way for young children to learn about being safe. Children can learn several tips by listening to Sophie (Agent S.) as she talks about how she keeps her brother Will safe by watching out for him. It's quite easy to learn from her hints, but also by looking at the pictures. For example, we can easily see that the pushing and shoving around the playground equipment is dangerous. Newly independent readers will be able to tackle this very basic beginning chapter book with a minimum of assistance save for words such as "handrail." In the back of the book is an index, a glossary, an activity (On the Lookout), and additional recommended book and website resources to explore. There are free downloadable complementary educational resources on the publisher's website. **MY HEALTHY HABITS:** Be Aware! My Tips for Personal Safety; Choose Good Food! My Eating Tips; Keep Calm!: My Stress-Busting Tips; Move Your Body!: My Exercise Tips; Poison Alert!: My Tips to Avoid Danger Zones at Home; Take a Bath!: My Tips for Keeping Clean.
