## **Customer Reviews**

'The Wipe-clean Alphabet is one in a wonderful series of interactive books to introduce young children to the alphabet and basic letter writing. The pages of the book are made from thick glossy card which is easy for little hands to turn, and are packed full of wonderfully cute, colourful and appealing pictures and illustrated scenes that children will love studying. The great feature of the book is that the pages of the book can simply be wiped clean, ready for writing on again. In our opinion, this is a really educational book for preschool children which teaches them about letters of the alphabet in a fun and uncomplicated way' - First4Dads 'Brilliant for promoting early letter recognition and encouraging children to practise writing letters.' - Mummy in the City

We love these books and my daughter enjoys them! I recommend cleaning the pages soon after they're done or they're harder to wipe off (need spray cleaner). It's definitely helping with the

alphabet learning and letter writing practice! She also enjoys doing the dashed shapes of the animals and other items in each picture.

My 3 year old grandson really likes it. Colorful, engaging, and good fine motor practice.

missing pen but very clean

An interesting and easy way to practice writing skills. Glad we got it! It is true, however, that you have to use the marker the book comes with. My younger son (2) loves it too, even though he can't quite stay on the lines, he loves drawing black squiggles all over the book like his older brother, and no wasting paper!

I received this as a gift for my 2 year old son. While he is a bit young for this book, he still enjoys looking at the colorful pages and drawing on it. The book does wipe clean, like it's called, however if you do not wipe within a certain amount of time the marker does not come off as easy. Otherwise this is a great book and definitely worth the investment.
