## **Customer Reviews**

I adore this book. It emphasizes how important advance planning and practical, day-to-day effort are to reaching our magickal goals. For example, the money magick section includes a budget to fill out. If only more magicians could see the wisdom of figuring out exactly what you need / want BEFORE you start throwing energy at it. Connolly also advocates planning out what you will do to reach your goal besides magick. I find that refreshing. Many books read as if spell craft fixes everything, but I believe it is only one part of being a successful, powerful individual.

This little powerful book of rituals works!! although I have yet to work with Belphegor, I have done this ritual with Lucifer and received amazing results, let me give you an example I'm in the process of looking for a house to buy, tired of renting and after doing my rituals to Lucifer I started seeing ads in the paper like 1200 down, 600.00 a month, exactly what I'm paying now for rent. also I have been having money literally appearing out of nowhere mind you not great sums, but finding 20.00 bucks here and there, money that was owed is now coming in, this lets me know my doing rituals to increase my cash flow is already in the works and I'm getting more clients for readings, what I love about the author S. Connolly she keeps it real, she does not sell false hope she knows her stuff, any kind of magic must be based in reality you will not run like Usain Bolt is your a paraplegic, you might get up and stand maybe even take a few steps. demons work fast and you must approach them with the utmost respect .while its a small book, it packs a powerful punch.

Very impressive.. I have only tried drawing strength from Lucifuge and it works.. No more pain or discomfort.. I am definately getting into this stuff.. This is magick that works..

It's okay, very short and to the point but doesn't go into much depth on any subject. It's basically just a handbook of common sense with some simple magic thrown in. Which is not to say that it's useless or you should not get it. It's very useful.

Very helpful and informative addition to her growing list of chapbooks. This book can be very useful regardless if you incorporate Daemons, another pantheon or none at all. It is sound, good advise.

I like the way the author made the reader put the focus on herself or himself and quit blaming others for things you lack.

Interesting

loved the book , I will be buying some of her other books in the near futur
